SKILLS

- HTML
- CSS
- Javascript
- Bootstrap
- MediaQuery
- React
- MongoDB
- Typescript
- NodeJS
- Angular

EXPERIENCE

LUMINAR TECHNO LAB

MERN Stack Developer - Intern
Duration - 6 Month
2023

EDUCATION

CALICUT UNIVERSITY

Bachelor of Computer Application
2020-2023

PROJECTS

Project Fair - A Platform for Managing Projects

"Project Fair" is an interactive platform I developed to empower users to showcase their projects. The platform allows users to seamlessly upload, manage, and share their projects with a community of like-minded individuals. Authenticated users gain exclusive access to view a comprehensive list of projects, offering a collaborative space for inspiration and networking.

Technologies Used in this project :

React , NodeJS , MongoDB , JWT , Context API , Express

Git Repo : <https://github.com/Basith-m/Project-Fair>

E Cart - An E-Commerce Website

"E-Cart" is a dynamic e-commerce website built with React, offering users a seamless shopping experience. With features like wish list management, shopping cart functionality, and real time cart summaries, users can effortlessly explore, select, and manage their desired products. The project utilizes React Redux for state management and a JSON server for efficient data handling.

Technologies Used in this project :

React , JSON , React Redux

Git Repo : <https://github.com/Basith-m/E-CART>
